Welcome to DiverseMind: Shaping Inclusive Education Across Europe

Introducing DiverseMind

We are excited to launch DiverseMind, a two-year Erasmus+ project (2024-2026) aimed at fostering awareness, understanding, and support for neurodiverse students in educational settings.

Through this initiative, we seek to empower teachers, peer students, and families with the knowledge and tools to create inclusive environments that celebrate diversity and promote social acceptance.

Our project brings together partners from Poland, Spain, and Ireland, all united by a shared vision of transforming education for neurodiverse learners.

Project Highlights:

- Practical guides for teachers, peer students, and their families.
- Engaging workshops and training sessions across partner countries.
- Accessible online resources like videos and manuals.
- Research-based insights into effective strategies for inclusivity.

Meet Our Partners

- Zespół Szkół i Placówek Specjalnych (Poland): Project coordinator, ensuring smooth implementation and collaboration.
- STOWARZYSZENIE ARID (Poland): Leading teacher-focused workshops and resource creation.
- Forum Educativo (Spain): Managing communication and dissemination.
- CDP San Fernando - Maristas (Spain): Leading family-focused activities.
- Educate Together (Ireland): Leading peer student workshops and engagement.

Kickoff Meeting in Krakow (27-28 November 2024)

The DiverseMind journey officially began on November with our Kickoff Meeting in Krakow, Poland, hosted by Zespół Szkół i Placówek Specjalnych. Representatives from all partner organizations came together to:

- Discuss project objectives, timelines, and responsibilities.
- Establish communication channels and collaboration frameworks.
- Plan the first phase of activities, including workshops and resource development.

We are thrilled to have successfully aligned our efforts and laid a strong foundation for this transformative project. Stay tuned for updates and outcomes from the activities we've set in motion!
